

# GOVERNMENT PREMIUM CARE SERVICE

## Service Overview

*Government Premium Care is a high-value personalized service that provides an end-to-end U.S. based, U.S citizen-delivered support experience with direct access to security-cleared technical support engineers, secure systems, and service and support management staff to ensure quick issue resolution and proactive management of your network.*

## Service Description

The Juniper Networks® Government Premium Care service is designed for government organizations with networks that contain highly sensitive data and are required to meet additional security measures based on different classification levels. The service provides direct access to a team of security-cleared technical support engineers, a designated service manager for all service-related issues, and secure systems in order to meet the government’s stringent security and data regulations.

Additional value-added features include onboarding assistance, best-practice knowledge transfer, and periodic customized reports, all available to enhance networking expertise, proactively identify and prevent problems, reduce administration, and enhance network life-cycle management experience.
